

## FEEDBACK REQUEST

**We are interested in feedback from both patients and physicians regarding the following:\***

1. Experience with the use of Valtrex, acyclovir, intramuscular gamma globulin, naltrexone, Isoprinosine and C-Pap in the management of CFS and fibromyalgia.
2. Experience with the use of Rocephin or other antibiotics in the treatment of patients with ALS or MS who live in or have visited areas where Lyme disease is endemic.
3. Observations regarding autism and/or Ausperger's disease that occurred after children were given hepatitis B vaccine or other vaccines.

Please e-mail your feedback to: [waisbrenclinic@ameritech.net](mailto:waisbrenclinic@ameritech.net)

\*All communications will be held in the strictest confidence.
